1. **MVC pattern.**

In the link https://www.tutorialspoint.com/design_pattern/mvc_pattern.htm you can see **MVC pattern** example which is programmed in Java. You have to implement same example in C++.

Example 1: -

2. **MVC pattern.**

Implement C++ application **Throwing dice** where you use MVC pattern. In a dice is six symmetric size faces (figure 1). Probability of each faces is same ($1/6$).

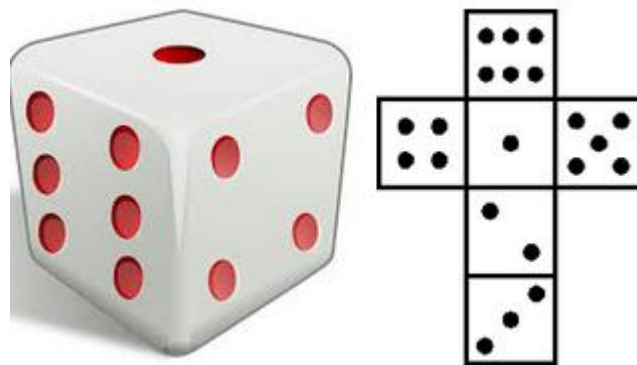

Figure 1.
